Integra Global Partners – Delivering expert financial leadership to businesses across the globe

Who We Are

At **Integra Global Partners**, our mission is to foster lasting partnerships built on trust, collaboration, and the creation of enduring value. We believe that the strongest client relationships are those forged through genuine understanding, shared objectives, and consistent delivery.

Our client-focused approach delivers tailored solutions that combine deep technical expertise with practical, on-the-ground insights. We do not offer off-the-shelf answers – every engagement is shaped around the unique regulatory environment, risk profile, and strategic goals of our clients.

Whether you are a regulated financial institution, a fund manager, or a growing corporate entity, Integra Global Partners provide outstanding outsourced financial leadership and compliance infrastructure you need to operate with confidence.

Our Mission

OUR PURPOSE

Operational Excellence

Streamlining financial processes to improve accuracy, reduce operational expenses and risk and drive measurable productivity gains for our clients across all finance functions.

Regulatory Integrity

Upholding the highest standards of regulatory compliance and data security, ensuring our clients remain audit-ready and fully aligned with top tier international frameworks.

Actionable Insights

Providing forward-looking financial intelligence that empowers leadership teams to make informed, confident decisions in an increasingly complex regulatory landscape.

Sustainable Growth

Helping clients achieve long-term, sustainable growth by optimising financial operations, reducing unnecessary costs, and freeing leadership to focus on core business strategy.

Why Partner With Integra Global Partners?

1

Regulated Expertise

Our officers are authorised under numerous tier 1 regulated frameworks, providing genuine regulatory credibility and accountability within your firm.

2

Cost Efficiency

Gain senior finance leadership at a fraction of the cost of a full-time hire – no recruitment fees, no employment overhead, no notice periods.

3

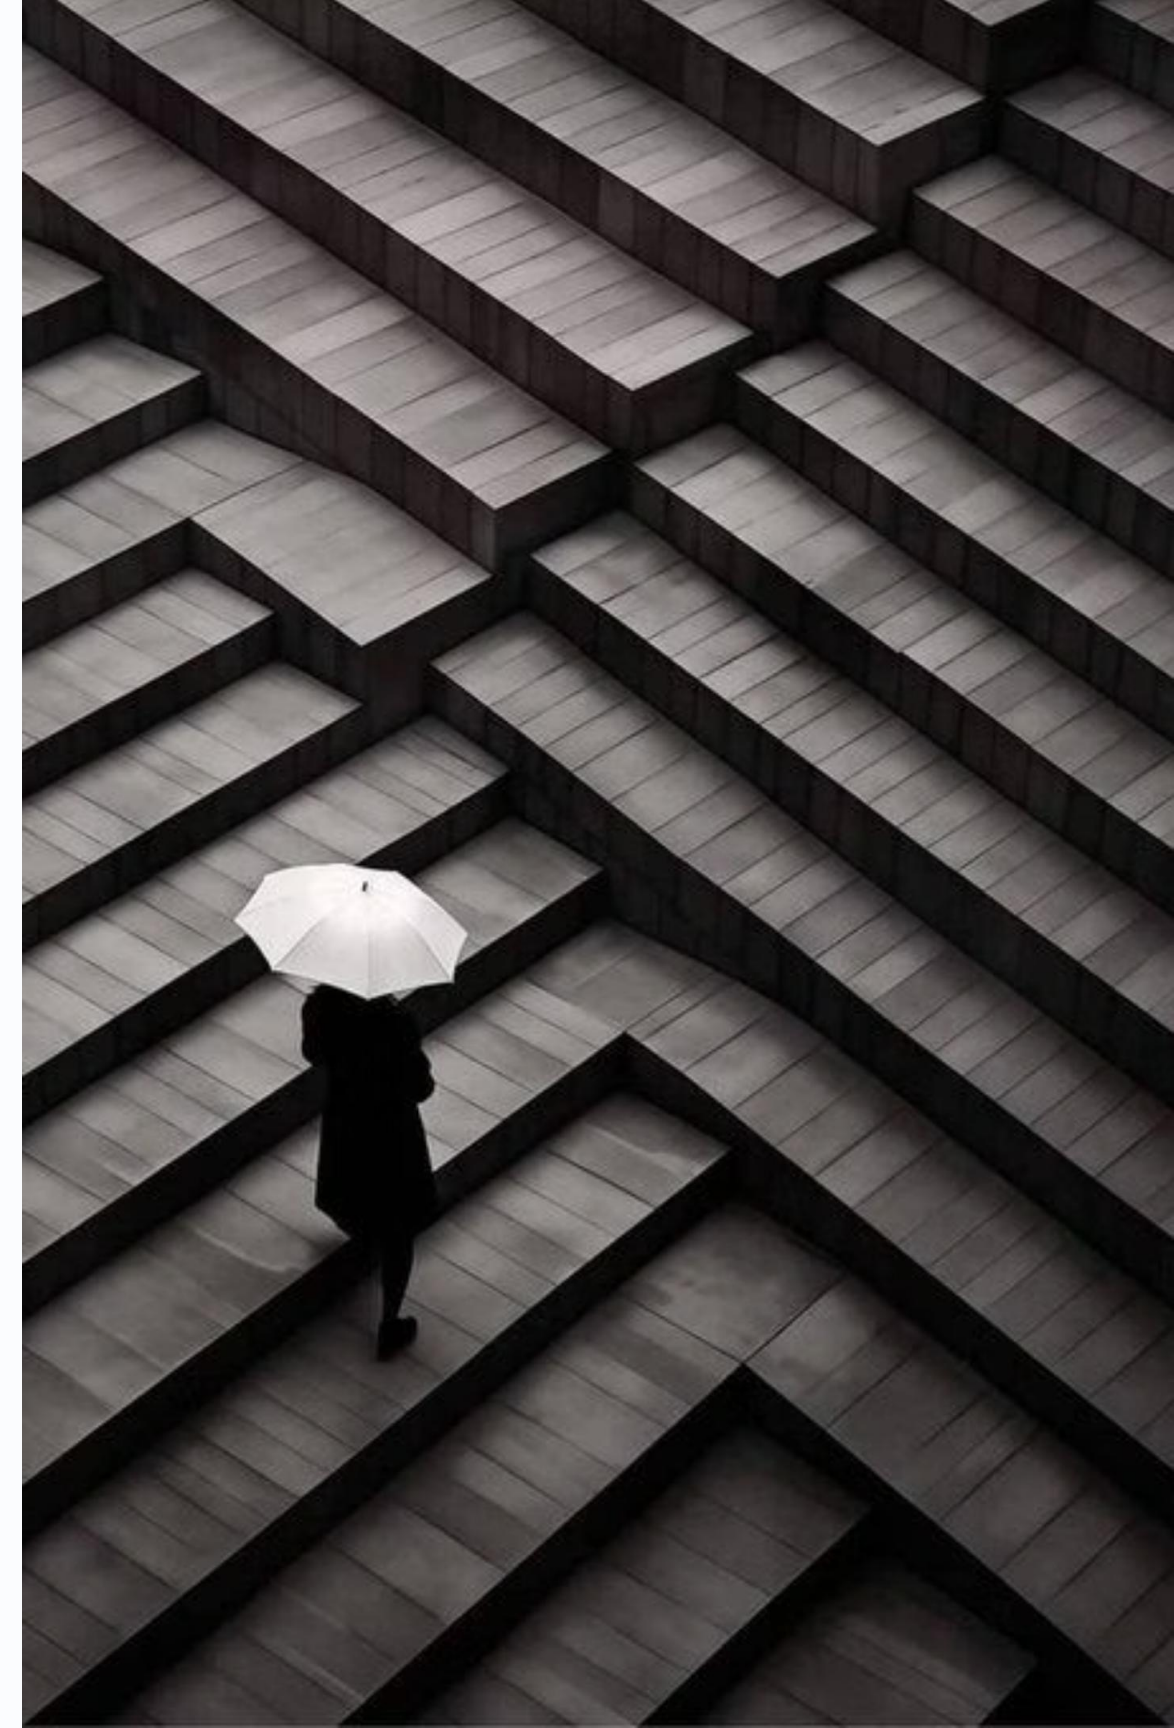

Seamless Integration

Our team embeds within your operations, working alongside your management and board as a trusted internal resource, not a detached third party.

4

Scalable Engagement

Services are structured to grow with your business. As your regulatory and financial complexity increases, our support scales accordingly.

Scope of Finance Officer Services

RESPONSIBILITIES & DELIVERABLES

Our Authorised Finance Officers assume full accountability for the finance function within your regulated entity, acting as a senior embedded resource without the overhead of a permanent hire.

Finance Function Oversight

Full oversight of reporting, liquidity management, banking relationships, treasury operations, and internal financial controls ensuring your finance function operates to the highest standard at all times.

Management Accounts

Preparation and approval of monthly management accounts, incorporating variance analysis and regulatory impact commentary, delivered within agreed timelines to support board and management decision-making.

Regulatory Compliance

Ensuring compliance with all applicable regulatory reporting and licensing requirements. Serving as the primary point of contact for regulator and auditor data requests, inspections, and internal control reviews.

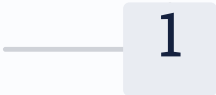

Strategic Advisory

Providing strategic financial advice to management and the board on capital adequacy, regulatory capital requirements, pricing strategy, and profitability analysis, including attendance at board and committee meetings.

Reporting Cadence

FINANCE OFFICER REPORTING FRAMEWORK

Monthly
Management accounts and detailed commentary delivered within agreed timelines, including variance analysis and regulatory impact review.

Quarterly

Regulatory readiness reports providing a comprehensive view of compliance status, with tracked remediation actions and forward-looking risk commentary.

Immediate Escalation
Material control failures, regulatory breaches, or significant financial risks are escalated immediately to senior management, with no delay in notification.

☐ All reporting timelines and escalation protocols are agreed contractually and in accordance to regulatory standards at engagement commencement, ensuring full transparency and accountability from day one.
